This documentary film is about COFFEE STRONG and its importance for its most active members: active duty soldiers and their families, veterans of recent and past conflicts, and regional and national political movements. At the center of the film are the men and women whose experiences in the military and war compel them to commit themselves to help others who are serving or have served in the past. Each individual featured in the film exists within a nuanced tangle of conflicting emotions tied to pride, dedication to service, friendship, anger, disillusionment, sadness, and guilt.

The film examines each one's stories from their decisions to join the military, their experiences of war, and their motivations for devoting themselves to Coffee Strong. It explores how their relationships with one another and their activist efforts to make a more peaceful and just world help them cope with their own experiences.

Have you ever wondered what money is or where it comes from? While most of us take the monetary system for granted, it has silent and profound implications for everyone. The Money Fix is a feature-length documentary comparing and contrasting community currencies with federal dollars.

The film examines economic patterning in both the human and the natural worlds, and through this lens we learn how we can empower ourselves by redesigning the lifeblood of the economy at the local level.

Join us in a very timely discussion on local currency, money and our economic systems, past and future! More information: [www.themoneyfix.org](http://www.themoneyfix.org) Download the Flyer [HERE!](#)

#### **FILM: “BETTER THIS WORLD” ...The Fight to Maintain Civil Liberties**

**WITH PANEL DISCUSSION: THE ACLU AND OUR VANISHING CIVIL LIBERTIES**

The story of Bradley Crowder and David McKay, who were accused of intending to firebomb the 2008 Republican National Convention, is a dramatic tale of idealism, loyalty, crime and betrayal. Better This World follows the radicalization of these boyhood friends from Midland, Texas, under the tutelage of revolutionary activist Brandon Darby.

The results: eight homemade bombs, multiple domestic terrorism charges and a high-stakes entrapment defense hinging on the actions of a controversial FBI informant. BETTER THIS WORLD goes to the heart of the war on terror and its impact. In collaboration with the award winning series POV.

Join us following the film for a facilitated community discussion.
