Trudy Bialic: Director of Public Affairs with PCC

Heather Trim: Zero Waste Seattle

Jill McIntyre Witt: Transitions Whatcom

Dick Lilly: Seattle Public Utilities

A Representative from the Seattle City Council Office

Leo Brodie: Transition Seattle

Cathy Tuttle: Sustainable Wallingford

What is plastic made of? Is it recyclable? Does it decompose when it ends up in the landfill? Why would you make something that you're going to use for a few minutes out of a material that's basically going to last forever?

Does plastic have negative health effects? What starts as a film about plastic bags evolves into a wholesale investigation into plastic and its effect on our waterways, oceans, and even our own bodies. Try going a day without plastic.

Join us following the film for a facilitated community discussion.
